Combining Expertise to Enhance Health

DB has a proven record of providing public health, information technology (IT) and communications support to CDC and other Federal agencies. To deliver effective health solutions, DB Consulting Group, Inc. (DB) has established a multi-disciplinary team of professionals who seamlessly work together toward a common goal: improving health. Our public health professionals provide subject-matter expertise on a variety of health issues. Our social marketing and health communications specialists possess the necessary skills to ensure that the right messages reach the right people. While our IT experts ensure that important messages, data, and information are accurately captured, maintained, and shared.

For more than a decade, DB has been using this multi-disciplinary approach to deliver innovative solutions that enhance health around the globe.
